“The impact on maritime transport of health threats due to biological, chemical and radiological agents, including communicable diseases”

EU SHIPSAN ACT Joint Action

Supporting port health in Europe through training courses, an integrated inspection programme and information system tools.

Ship inspections for all types of ships for issuing SSC under the International Health Regulations

Inspection standards

WHO Handbook for inspection of ships and issuance of Ship Sanitation Certificates.

Available for download:

http://www.who.int/ihr/publications/handbook_ships_inspection/en/

Training

For training activities relevant to IHR implementation at all types of ships, access the WHO e-learning training platform: <http://extranet.who.int/ihr/training>

European scheme for inspections of passenger ships

Inspection standards

European manual for hygiene standards and communicable diseases surveillance on passenger ships.

Available for download:

<http://www.shipsan.eu/KeyResources.aspx>

Training

For training activities related to passenger ships, access the SHIPSAN ACT e-learning platform <http://elearning.shipsan.eu/>

Database

For recording inspections conducted against the European standards as provided in the European Manual, access the SHIPSAN Information System (SIS). <https://sis.shipsan.eu>

Information systems available to port health officers in the European Union

Information system for recording and issuing Ship Sanitation Certificates based on WHO handbook

<https://sis.shipsan.eu>

Functions:

Recording and issuing Ship Sanitation Certificates based on WHO handbook
Generation and print of official documents related with the inspections (i.e. SSC and the Evidence Report).

European directory for authorised ports of EU countries for issuing Ship Sanitation Certificates under IHR (2005)

<http://www.shipsan.eu/Inspections/AuthorisedportstoissueSSC.aspx>

Functions:

Contact details of authorised ports of EU countries for issuing Ship Sanitation Certificates under IHR (2005).

Communication network platform for EU ports

<https://sis.shipsan.eu>

Functions:

- Enhancing port to port communication.
- Sharing information on public health events in a standardised and confidential way.
- Recording information for risk assessment.
- Exchanging information during an outbreak investigation.
